CANADA

Munich, May 9, 2017

Ladies and gentlemen,

with your almost 5% equity stake in Euro Disney (ED), you are now the only ones who are able all alone to prevent a takeover of ED by The Walt Disney Company (TWDC).

I think it will be profitable on the long run not to sell but to keep the shares of ED.

But to achieve our common purpose it is necessary to convince TWDC to change the business policy which they have practiced until now for the disadvantage of shareholders. You can read about this in my listed letters on my homepage www.dia-spezial.de

Only with your influence and powerful position it will be possible to prevent the „squeeze-out takeover“ of ED by TWDC.

Please help shareholders like me not to be „squeezed-out“.

Sincerely yours

Jürgen Freisler
